

TOWN OF WAYLAND | OPEN SPACE AND RECREATION PLAN UPDATE

May 4, 2016 Public Engagement Session

Dear Meeting Attendee:

To advance our discussions this evening and going forward we have identified some basic questions that might help prompt a comment or question from you. **YOUR INPUT IS ESSENTIAL!** Please review this information and be prepared to join the conversation in a few moments.

Do you have a good understanding about what type of properties make up Wayland's park, open space and recreation system?
Do you have favorite properties within the system?
What properties do you make use of?
Are facilities and amenities adequate?
Are conditions good?
Are facilities generally available when you desire to use them?
Do you gravitate toward passive or active recreational pursuits, or both?
Do current recreation programs meet you and/or your family's needs?
Are there new recreation programs that you would like to see?
Do you favor the acquisition of land for the purpose of public use and enjoyment? Do you favor the acquisition of land for the purpose of protecting environmental resources?
Do you make use of the town's conservation areas, many of which offer a series of trails that traverse diverse environmental resources?
What improvements would you like to see?

Please watch for a park, recreation and open space user survey which will be made available later this month online through the Town's official website at www.wayland.ma.us.
